

GIS Services

For Mosquito & Vector Control

SkyTracker or AgNav Data Import for FieldSeeker® GIS or Sentinel® GIS

Set up import tools so that aerial spray data from SkyTracker or AgNav is included with the rest of the FieldSeeker or Sentinel map data and reporting. **\$1,500 add-on**

Service Request GeoForm for FieldSeeker or Sentinel

Set up Service Request GeoForm in ArcGIS® Online and provide link for public Website. Set up integration with FieldSeeker or Sentinel GIS to accept service requests from the public. Orientation training to show staff how to review requests and check for updates with Sentinel. **\$1,000, 5 hours**

Operations Dashboard for FieldSeeker or Sentinel

Set up Web Map and Operations Dashboard in ArcGIS Online and provide link for internal use. Orientation training to show staff how to use dashboard and how to make changes to configuration. **\$1,500, 7.5 hours**

Where are We Spraying? Public Web Map

Set up Web Map in ArcGIS Online and provide link for public Website. Orientation training to show staff how to use tools for updating spray zone information and symbology in public Web Map. **\$1,000, 5 hours**

GIS Data Update

Locate and download latest available ortho imagery, streets, parcels and other relevant GIS data. Integrate data into Sentinel desktop and mobile maps. **\$400, 2 hours**

Map Book

Create printable map book from district data. Includes creating or locating grid index layer, generating printable map template in customer-approved format, manipulating map symbology and labels appropriate for printing, and creating PDF map book that can be printed. **\$800, 4 hours**

Custom Report

Create custom ArcGIS report using built-in reporting tools. Examples include a print-out of all swimming pool sources, total time spent on inspections per technician, weather information summary – anything not covered by standard Sentinel reports. **\$400, 2 hours**

Service Request Email Integration

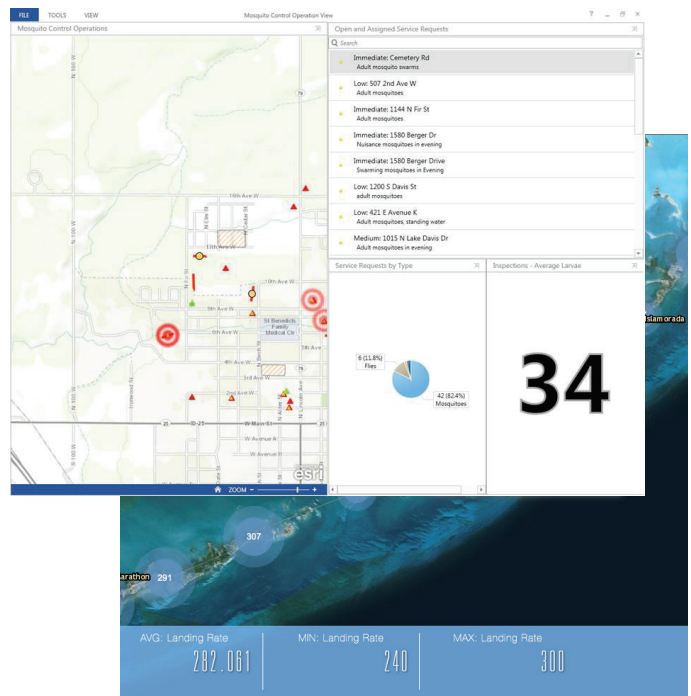

Create tool in email client (Microsoft Outlook) to create a Service Request from a formatted email (e.g., from a Web submission). **\$1,600, 8 hours**

ArcGIS Online Jump Start

Provide Intro to ArcGIS Online training, configure your organizational account including home page, groups, user roles, branding, and content organization, and provide assistance with creating one or more information products such as public status maps, dashboards, story maps, Collector projects, etc. **\$5,000, 30 hours**

Geospatial Value Plan

Provide scalable GIS services on an annual basis, working from individual scope of work addenda defining specific jobs to be performed. **Starting at \$5,000 per year**
